

26 Two waves E and G are shown. The waves have the same speed.

E

G

Which statement is correct?

- A** Wave E has a greater amplitude than wave G.
- B** Wave E has a greater intensity than wave G.
- C** Wave E has a smaller frequency than wave G.
- D** Wave E has a smaller wavelength than wave G.

27 The diagram shows a displacement-time graph for a progressive wave
