

- 11** A single horizontal force F is applied to a block X which is in contact with a separate block Y as shown.

The blocks remain in contact as they accelerate along a horizontal frictionless surface. Air resistance is negligible. X has a greater mass than Y.

Which statement is correct?

- A** The acceleration of X is equal to force F divided by the mass of X.
- B** The force that X exerts on Y is equal to F .
- C** The force that X exerts on Y is less than F .
- D** The force that X exerts on Y is less than the force that Y exerts on X.
