

- 27 A transmitter of electromagnetic waves is placed 45 cm from a reflective surface.

The emitted waves have a frequency of 1.00 GHz. A stationary wave is produced with a node at the transmitter and a node at the surface.

How many antinodes are in the space between the transmitter and the surface?

- A** 1 **B** 2 **C** 3 **D** 4

- 28 A teacher sets up the apparatus shown to demonstrate a two slit interference pattern on the
