

- 27 The diagram shows the paths of two charged particles, X and Y, during their passage between a pair of oppositely charged metal plates, P and Q.

The plates are charged such that the electric field between them is directed from Q to P.

Which charges on X and Y will produce the observed paths?

	X	Y
A	-	-
B	-	+
C	+	-
D	+	+

- 28 There is a potential difference between a pair of parallel plates.
