

36 In the circuit shown, the ammeter reading is  $I$  and the voltmeter reading is  $V$ .

When the switch is closed, which row describes what happens to  $I$  and to  $V$ ?

	$I$	$V$
<b>A</b>	decreases	decreases
<b>B</b>	increases	increases
<b>C</b>	increases	stays the same
<b>D</b>	stays the same	increases
