

38 The gold nucleus  $^{185}_{79}\text{Au}$  undergoes alpha decay.

What are the nucleon number and proton number of the nucleus formed by this decay?

	nucleon number	proton number
A	183	79
B	183	77
C	181	77
D	181	75

39 Which row gives the correct classification of protons, electrons and neutrinos?
