

- 14 A hinged trapdoor is held closed in the horizontal position by a cable.

Three forces act on the trapdoor: the weight  $W$  of the door, the tension  $T$  in the cable and the force  $H$  at the hinge.

Which list gives the three forces in **increasing** order of magnitude?

- A  $H, T, W$       B  $T, H, W$       C  $W, H, T$       D  $W, T, H$
