

- 36** A battery of negligible internal resistance may be connected between any two points P, Q, R and S of the network of resistors shown.

Which connections will give the largest current and the smallest current in the battery?

	largest current	smallest current
A	PQ	PR
B	PQ	QS
C	RS	PR
D	RS	QS

- 37** Kirchhoff's second law is a consequence of a basic principle.
