

**25** Which of the following applies to a progressive transverse wave?

|          | transfers energy | can be polarised |
|----------|------------------|------------------|
| <b>A</b> | no               | no               |
| <b>B</b> | no               | yes              |
| <b>C</b> | yes              | no               |
| <b>D</b> | yes              | yes              |

**26** Which of the following may be used to produce stationary waves?
