

7(a)	down charge = $-1/3(e)$ and charm charge = $(+)2/3(e)$	B1
	all antiquarks have opposite sign and same (non-zero) magnitude of charge as the corresponding quarks	B1
7(b)(i)	udd or cdd	B1
7(b)(ii)	$u\bar{d}$ or $c\bar{d}$	B1
7(c)(i)	lepton(s)	B1
7(c)(ii)	positron / neutrino / antineutrino	B1
