

3(a)	sum of potential energy and kinetic energy	B1
	(total) energy of random motion of particles	B1
3(b)(i)	no change in separation so no change in (molecular) potential energy	B1
	temperature increases so kinetic energy (of molecules) increases	B1
	kinetic energy increases and potential energy unchanged, so internal energy increases	B1
3(b)(ii)	temperature constant so no change in (molecular) kinetic energy	B1
	separation increases so potential energy (of molecules) increases	B1
	potential energy increases and kinetic energy unchanged, so internal energy increases	B1
