

5(a)	a (much) louder sound can be heard	B1
5(b)	$v = f\lambda$	C1
	$\lambda = 340 / 530$ (= 0.64 m)	C1
	height = 0.64 / 4 = 0.16 m	A1
5(c)	distance = 0.64 / 2 or 0.16×2 or $(\frac{3}{4} \times 0.64 - \frac{1}{4} \times 0.64)$ = 0.32 m	A1
