

- 10 (a)** nuclei spin/precess B1
 spin/precess about direction of magnetic field B1
either frequency of precession depends on magnetic field strength
or large field means frequency in radio frequency range B1 [3]
- (b)** non-uniform field means frequency of precession different in different regions
 of subject B1
 enables location of precessing nuclei to be determined B1
 enables thickness of slice to be varied/location of slice to be changed B1 [3]
