

- 10 (a) (i)** amplitude (modulated) (*allow 'AM'*) B1 [1]
- (ii)** carrier (frequency / wave) B1 [1]
- (iii)** sideband (frequency) B1 [1]
- (b)** 10 kHz B1 [1]
- (c)** sketch: general shape i.e. any wave that is amplitude modulated M1
- correct period for modulating waveform (200 μs) A1
- correct period for carrier waveform (20 μs) A1 [3]

Page 7	Mark Scheme	Syllabus	Paper
	GCE A/AS LEVEL – October/November 2007	9702	04

11 (a) carrier frequencies can be re-used (simultaneously without interference)
