

5(a)	work done per unit charge	B1
	work (done) moving positive charge from infinity (to the point)	B1
5(b)	<i>Any three points from:</i> <i>Up to 2 points from:</i> • radius of sphere X is 0.30 m • radius of sphere Y is 0.10 m • radius of X is treble the radius of Y <i>Up to 2 points from:</i> • charge on X is positive • charge on Y is positive • spheres X and Y carry charges of the same sign <i>Up to 1 point from:</i> • (magnitudes of) charges on the spheres are equal • charges on the spheres have the same magnitude	B3
5(c)	proton remains at rest (in the position of release)	M1
	potential <u>energy</u> of proton is (already) at its minimum or (electric) forces (from spheres) on proton are equal and opposite or no resultant (electric) force on proton or resultant electric field strength (at proton) is zero	A1
