

resistance of filament rises as temperature rises

B1

[2]

8

- (a) nucleus emits
 α - or β - particles and/or γ -rays

M1

A1

[2]

- (b) decay unaffected by environmental changes
such as temperature, pressure etc. (*one e.g. is sufficient*)

M1

A1

[2]

- (c) constant probability of decay (per unit time) of a nucleus
cannot predict which particular nucleus will decay next

B1

B1
