

- 7 (a) (i) alter distance from vibrator to pulley
alter frequency of generator
(change tension in string by) changing value of the masses

any two

B2 [2]

- (ii) points on string have amplitudes varying from maximum to zero/minimum

B1 [1]

- (b) (i) 60° or $\pi/3$ rad

A1 [1]

- (ii) ratio = $[3.4/2.2]^2$

C1

$$= 2.4 \text{ (2.39)}$$

A1 [2]
