

6	(a) sketch: from $x = 0$ to $x = R$, potential is constant at V_S	B1	
	smooth curve through (R, V_S) and $(2R, 0.5V_S)$	B1	
	smooth curve continues to $(3R, 0.33V_S)$	B1	[3]
	(b) sketch: from $x = 0$ to $x = R$, field strength is zero	B1	
	smooth curve through (R, E) and $(2R, 0.25E)$	B1	
	smooth curve continues to $(3R, 0.11E)$	B1	[3]
