

- 10 (a)** X-ray taken of slice / plane / section B1
 repeated at different angles B1
 images / data is processed B1
 combined / added to give (2-D) image of slice B1
 repeated for successive slices B1
 to build up a 3-D image B1
 image can be viewed from different angles / rotated B1
 max 6 [6]

- (b) (i)** 16 A1 [1]

- (ii)** evidence of deducting 16 then dividing by 3 C1
 to give A1 [2]

3	2
6	5

- 11 (a)** frequency of carrier wave varies (in synchrony) with signal M1
