

- | | | | | |
|-----|------|---|----|-----|
| 1 | (a) | 2nd row random, 3rd row neither, 4th row systematic all correct
two correct scores 1 only | B2 | [2] |
| (b) | | | | |
| | (i) | 1. systematic error: the average / peak is not the true value / the readings are not centred around the true value | B1 | [1] |
| | | 2. random error: readings have positive and negative values around the peak value / values are scattered / wide range | B1 | [1] |
| | (ii) | 1. accurate: peak / average value moves towards the true value | B1 | [1] |
| | | 2. precise: lines are closer together / sharper peak | B1 | [1] |
| 2 | (a) | resultant moment = zero / sum of clockwise moments = sum of anticlockwise | | |
