

$$9.11 \times 10^{-31}$$

$$v = 4.5 \times 10^7 \text{ ms}^{-1}$$

A1 [3]

- (d) both have 1 proton and 1 electron
1 neutron in hydrogen-2 and 2 neutrons in hydrogen-3
(special case: for one mark 'same number of protons / atomic number
different number of neutrons')

B1

B1 [2]
