

1	(a) the wire returns to its original length when the load is removed	(not 'shape')	M1 A1	[2]
	(b) energy: $\text{N m} / \text{kg m}^2 \text{s}^{-2}$ and volume m^3 energy / volume: $\text{kg m}^2 \text{s}^{-2} / \text{m}^3$ energy / volume: $\text{kg m}^{-1} \text{s}^{-2}$		C1 M1 A0	[2]
	(c) ϵ has no units E : $\text{kg m s}^{-2} \text{m}^{-2}$ units of RHS: $\text{kg m}^{-1} \text{s}^{-2} = \text{LHS units}$ / satisfactory conclusion to show C has no units		B1 M1 A1	[3]
